

*"Improved health through quality health information"*

## CEO Stephen Clark on Patient Safety

Health care technology has the potential to improve patient safety but only if we can minimize the risks. While NLCHI does not provide direct patient care, our programs and services support health care delivery on a variety of levels. Patient safety by design is about adopting a culture of patient safety that factors in both our decision making and our measured outcomes. From **Oct 28 to Nov 1**, join us in recognizing **Canadian Patient Safety Week**. Click for more info.

## Provincial eHealth Model

NLCHI is the provincial lead for a shared services approach to managing eHealth services across the health care system. **eHealth** is the electronic, communication and technology tools used to share health and administrative information. As part of its new legislated mandate, NLCHI assumed accountability for eHealth services delivered in the four Regional Health Authorities on **October 2, 2019**. Click to learn more about the Provincial eHealth Model.

## NLCHI Holds AGM

The 2018/19 NLCHI AGM was held on September 25, 2019. Over the past year, NLCHI reached a number of significant milestones including the completion of the provincial electronic health record, growth in the provincial electronic medical record program, further implementation of the Provincial eHealth Model and development of key components for a Health Data Lab. Click to view the **2018/19 Annual Business Report**.

## Privacy Awareness - HEALTHe NL

HEALTHe NL is the province's electronic health record. Every day, clinicians across the province use this digital health tool to help manage patient care.

As part of NLCHI's commitment to privacy awareness, a **quick-guide to the Appropriate Use of HEALTHe NL** has been developed.

Help support privacy awareness throughout your organization by sharing this message with your members who are HEALTHe NL users.

## eOrdering - Vascular Lab

This fall, NLCHI along with its partners Quality of Care NL and Eastern Health, will introduce a new electronic ordering process for referring patients to the Vascular Lab at St. Clare's Mercy Hospital.

Utilizing HEALTHe NL, the new eOrdering process will streamline the referral process across the province with the aims of improving patient outcomes, increasing patient safety and automatically prioritizing patient scheduling based on need. **Click to learn more about the benefits of this new process.**

## Flu Shot Clinics - Provincial Interactive Map

Flu shot season is here. To find a clinic in your area, view NLCHI's interactive map that shows the times and locations of all public influenza clinics across the province. **Click to open the map.**
